PROPOSED FLOOD INSURANCE RATE MAP REFLECTS CHANGES TO LOCAL FLOOD RISK

90-Day Appeal Period for Filing Appeals and Comments Began July 1, Ends September 30

Monmouth, IL August 3, 2020 — **Updates to Warren County’s Flood Insurance Rate Map (FIRM)** are nearly complete. The new map will provide Warren County with up-to-date flood risk information and tools that can be used to enhance local mitigation plans and help officials and residents make better decisions about reducing flood risks and purchasing flood insurance. The county’s mapping project is part of a nationwide effort led by the Federal Emergency Management Agency (FEMA) to increase local knowledge of flood risks and support actions to address and reduce those risks. The work in Warren County has been led by FEMA Region V, in partnership with local community officials and the Illinois State Water Survey. Before the new Flood Insurance Rate Map is finalized, a 90-day appeal period will give residents and business owners a chance to provide additional technical data or non-technical comments for FEMA’s consideration.

Warren County officials encourage residents and business owners to review the proposed map changes, learn about local flood risks and potential flood insurance requirements, and share any concerns or questions.

If members of the community notice incorrect information that does not involve changing the flood hazard-related information - such as a missing or misspelled road name or an incorrect corporate boundary - a written correction, or “comment” can be submitted. If members of the community have concerns about certain areas of the map and have technical and scientific information such as detailed hydraulic or hydrologic data that can be used to improve the maps, they may file and appeal during the 90-day appeal period.

KEY MAPPING MILESTONES

October 2019 — Preliminary Flood Insurance Rate Map released

December 2019 — Flood Risk Community Open House

July 1, 2020 — **Start of 90-day Appeal Period**

Summer 2021* — New FIRM becomes effective; new flood insurance requirements are applied

For information about the deadline for submitting an appeal or comments, call S. Fuller, Illinois State Water Survey, at (217) 300-0221.

For general information, contact a Map Specialist with any questions at 1-877-336-2627 (toll free) between 7:00 a.m. and 5:30 p.m. ET.

**Date subject to change, pending completion of appeal review process.*

All comments and appeals must be submitted through the local officials. Because submitting an appeal requires some time and effort, we encourage property owners and renters to review the updated flood maps now. If you are interested in submitting an appeal, we highly recommend that you first discuss it with your local officials so they can provide guidance on the process.
